

THE AUSTRALASIAN COLLEGE OF SOFT TISSUE THERAPY

“Continual Clinical Skill Enhancement Series”

PRESENTS

SURFACE ANATOMY REVIEW – THE UPPER BODY

PRESENTED BY

Robert Granter AdvDipRemMass(Myo)(RMIT)BSocSci(Deakin)

WHAT:

This new ACSTT Continual Clinical Skill Enhancement Series is aimed at keeping our clinical skills updated and refreshed

All therapists recognize the importance of maintaining and developing the essential knowledge and skills of their profession.

This interactive class will review the important surface anatomical points of the upper body to immediately allow you to become oriented and know exactly where you are on the body to give certainty and confidence to palpatory assessment and subsequent treatment interventions

You will learn the dominant boney, myofascial, vascular and neural regions of the Head, Neck, Thoracic and Lumbar spine, Abdomen, Scapular and Upper Limb and appreciate and understand the 3 dimensional nature of the tissue at a greater level of depth. Active joint movement planes will also be reviewed. **All participants will be encouraged to submit their areas of greatest need to ensure that all members of the group obtains the greatest benefit from the time spent.**

COST: A\$75
